---	--	---

Magazines, Magazines, Magazines

- Help! Our *Time for Kids* and *National Geographic Kids* subscriptions are not being utilized. Interested in teaching informational text using magazines? We've got you covered. The Time subscription comes in sets of 10.
- Need ideas? There are some great one on the links below
 - <http://teachingmyfriends.blogspot.com/2014/05/what-to-do-with-your-extra-scholastic.html?m=1>
 - <http://corkboardconnections.blogspot.com/2013/08/teaching-informational-text-with.html>
- Professional subscriptions available to you in the library include:
 - [NSTA Reports \(Science\)](#)
 - [Time Magazine](#)
 - [Middle School Journal](#)
 - [Tech and Learning](#)
 - [Instructor](#)
 - Voices from the Middle
 - [School Library Journal](#)
 - [American Football Monthly](#)
 - [Scholastic ART](#)

Tumblebooks (New Releases Available)

- These e-books are for students of all levels. Use them for your students, use them for the young people in your life. They are fantastic!
- Check them out at <http://asp.tumblebooks.com/home.aspx>

AR 360

- We've been upgraded! AR 360 takes AR, the trusted reading program you've loved for years, to another level with new instructional features to help you maximize student growth.

AR 360 gives you access to a collection of 400+ leveled nonfiction articles, each with built-in highlighting and tagging activities to cite text evidence, writing prompts, and an AR Other Reading quiz. It also provides support for setting and monitoring three personalized reading practice goals; comprehension, quantity, complexity. You will also have access to a Reading Dashboard that provides at-a-glance data visualizations and a "What's Next Navigator" to identify which skills students are ready to learn and resources to support that learning.

Interested in learning more? You can come by the library on Wednesday, April 1st from 3:05-3:30 p.m. to find out how to implement this tool in your classroom or contact Ms. Davis for an alternate time.
